

# Pray daily with us for the Supreme Court and the Right to Life.

*We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness.*

*-The Declaration of Independence*

Dearest Los Angeles Pregnancy Services (LAPS) supporter,

I am writing to ask that you pray daily for a critical moment in the pro-life movement and our nation's history. With a vacancy on the Supreme Court, our country may be able to fill it with a judge that upholds the God-given right to life.

## **Here's how the Supreme Court has affected LAPS directly:**

For decades, a war has been waged against our pregnancy centers by abortion activists and politicians in California. In 2015, the California legislature passed an egregious law that forced pro-life pregnancy centers with medical services to refer our clients to abortion centers. This law violated our freedom of speech rights and was against our very mission. Our attorneys presented a lawsuit on our behalf in the California courts, but we lost.

**In 2018, the Supreme Court of the United States decided to take on our case, NIFLA v. Becerra, and we won!** This victory for California pregnancy centers was because of the confirmation of Justice Neil Gorsuch that gave us the 5:4 ruling in our favor. We are certain that countless lives have been spared.

Our ultimate hope is that the Supreme Court will reverse Roe v. Wade, the 1973 decision that established abortion as a right in all 50 states. The protection and right to life of an entire group of Americans, the unborn, was eliminated with this judicial abuse.

It will certainly be a fierce spiritual battle to get a nominee confirmed that respects the life of unborn children, so we need your prayers and any sacrifice you can make.

Thank you for joining us in praying fervently for this petition, and for all the ways you support our work. We are confident that "in all things we are more than conquerors through Him who loved us." Rom. 8:37

In Christ,

Astrid Bennett and the LAPS team

**P.S.. So far this year, LAPS has saved 117 babies from abortion.** We feel privileged and happy to serve pregnant mothers in need.
